

2026 TECHNICAL RESOURCE DIRECTORY

The Technical Resource Directory was developed to provide the flooring industry with direct technical support contacts, including phone numbers, website, and email addresses for floor covering manufacturers, distributors and consultants in one location. Visit www.fcica.com for the most up-to-date directory information.

WAKOL®
Pursuing excellence unites

WAKOL Substrate Preparation Program

Great floor installations begin with Superior Subfloor Preparation

Loba-Wakol, LLC is proud to introduce three new products that will elevate your projects to the next level. The **WAKOL Z 627 Leveling Compound** offers an ideal smooth finish for a flawless surface, while the **WAKOL Z 637 Leveling Compound** is excellent for when time is of the essence. For filling and ramping uneven areas, the **WAKOL Z 647 Filling / Ramping Compound** provides exceptional performance and ease of application. Together, these innovative products deliver the reliability and quality needed to create the perfect foundation for any flooring installation.

PREVENT FAILURES BEFORE IT'S TOO LATE

Moisture vapor emissions cause adhesive de-bonding, curling, blistering, and ultimately finished flooring failure. Avoid delays by leveraging Maxxon's moisture mitigation solutions.

Maxxon Commercial MVP One

Block slab moisture without profiling or excessive downtime with this ready-to-use, fast-drying, single-component moisture barrier and primer.

Maxxon Commercial MVP Two-Part Epoxy

A one coat application of this 100% epoxy, provides protection from moisture up to 100% RH and 25 lbs of MVER & pH up to 14.

Maxxon Commercial Isolate

Save time and labor with this single-step, roller-applied solution that reduces moisture vapor emissions.

MAXXON

BENEATH IT ALL, MAXXON DELIVERS.
